No.DEE/RAJUVAS/PA/EEC/2015/2345

Date 6.02.2017

Minutes of the 3<sup>rd</sup> meeting of the Extension Education Council held on 5<sup>th</sup> February, 2017 at 11.00 AM in the Meeting Hall of VC Secretariat, RAJUVAS, Bikaner

The 3<sup>rd</sup>meeting of the Extension Education Council was held on 5<sup>th</sup> February, 2017 at 11.00 AM in the Meeting Hall of V.C. Secretariat, RAJUVAS, Bikaner under the Chairmanship of the Hon'ble Vice-Chancellor Prof. A.K. Gahlot. The list of members as well as invitees present in the meeting has been enclosed as Annexure-1.

At the outset, Hon'ble Vice-Chancellor Prof. A.K. Gahlot welcomed all the worthy members of the Extension Education Council of the Rajasthan University of Veterinary & Animal Sciences, Bikaner and introduced the External Members particularly, Dr. G.N. Mathur, (Retd) Professor, and Additional Director (Ajmer), DEE, Bikaner, Dr. Umesh Agarwal, OSD to VC, Jaipur, Sh. Arvind Ohja, CEO, Urmul trust, Bikaner. Director Extension Education Prof. R.K. Dhuria informed the house about the agenda to be considered in the meeting and requested Hon'ble Vice-Chancellor to initiate the proceedings of the meeting. Hon'ble Vice-Chancellor in his opening remarks emphasized that the faculty of Veterinary and Animal Science of the University is spread all over Rajasthan and now has got capabilities to meet out the extension needs in the State. Subsequently, the agenda of the meeting were taken one by one.

Agenda: EEC/03/A

#### Brief introduction of the activities of the University by Hon'ble Vice-Chancellor

At the outset, the Hon'ble Vice-Chancellor Prof. (Dr.) Col. A.K. Gahlot extended warm welcome to all the members of the Council. While briefing the House about the achievements as well as it activities, Hon'ble Vice-Chancellor Prof. A.K. Gahlot pointed out that significant progress has been made by RAJUVAS in the entire sector i.e. Teaching, Research and Extension. The University has strengthened their extension activities by way of our presence in 17 out of 33 districts, which is more than 50% of total geographical area of the State. The extension activities are very important through which we can reach to the door step of the farmers. Also the extension activities are the tunnels of technology through which we promote our technology for farmers. In the State like Rajasthan, where traditional farming

concept is there, trainings provided through VUTRCs particularly skill development programmes incorporating our technologies, play an important role in this regard.

Hon'ble Vice-Chancellor also informed the house about recent visit of Hon'ble Chief Minister along with Hon'ble Sh. Dushyant Singh Ji, Member of Parliament at Livestock Research Station, Dug, Jhalawar on 16th of December, 2016 where she remained for around 1 hour 45 minutes and we could get not only the opportunity to show-case of Malvi Cattle Breeding Farm and its activities, but also, to apprise her our Animal Husbandry Diploma Programme started recently. The Hon'ble CM interacted with the students also. Bhoomi Poojan of AHDP Building was also undertaken by Hon'ble C.M. at our farm and she praised the RAJUVAS for its different activities. While discussion with the Hon'ble Chief Minister, it was pointed out by the Hon'ble Vice-Chancellor that we are successful to improve the milk yield of Malvi cows up to 7 liters per day. Hon'ble CM was surprised to know about low milk yield of Malvi cattle, it was explained by Hon'ble Vice-Chancellor that in the area where rainfall is very high and most of farmers' population is engaged in agriculture, they pay very little attention towards the productivity of animals; therefore, this breed was never improved. The average milk yield of Malvi breed is half to one kg per day and our target is to provide Malvi cow of 15 liters milk yield per day in this region. Using better management practices, balanced ration as well as keeping the health aspect in mind, we have raised its milk yield up to 7 kg/day.

The Hon'ble Vice-Chancellor pointed out that only teaching and research is not the motive of the University, we have to reach to farmers by providing skill development trainings and make aware them about the new technologies, its use, its benefit etc., so that they can earn more for better livelihood. Our emphasis should be first to teach the farmers and make them to learn the nutritional, health and managemental aspects for their animals and to transfer the technologies by using all possible means of communications viz., skill development trainings, radio programme, SMS Advisory services, publications, farmers' interaction and through field visits. To meet out the target of the State Government i.e. to double the milk production in next five years and to double the income of the farmers by 2020 as per Central Government, the Directorate of Extension Education should prepare a plan to increase the number of Extension activities and set the target to train about 350000 livestock owners in next financial year. Hon'ble Vice-Chancellor also pointed out that DEE should prepare a database of training for accountability of trainings and Officer Incharges of

all VUTRC should develop a database by making a group of 100 progressive livestock owners in each district.

After the guiding remarks of the Hon'ble Vice-Chancellor, agenda items were discussed and resolved as follows:
