Issue I

From Vice-Chancellor's Desk

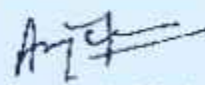

Let me take this opportunity to wish all our readers a very Happy and Prosperous New Year - 2011 and World Veterinary Year- 2011 to all Veterinary fraternity. It is indeed a proud moment for all of us that the Government of Rajasthan has established the Rajasthan University of Veterinary and Animal Sciences at Bikaner (10th in the country) which commenced w.e.f. 13th May, 2010. This step of the Government is in realization of the importance of animal husbandry sector in the economy of the state. This sector often exceeds 50% of the total contribution of agriculture in the GDP of the state. The strength of this sector lies in its consistently higher growth rate (4-6%) than overall growth rate of agriculture, women empowering (90% of labour), significantly contributing to the income of around 70% rural households (40-80%) who owe livestock and poultry amongst its holdings. We should be highly thankful to Hon'ble Chief Minister Sh. Ashok Gehlot and Hon'ble Minister for Agriculture and Animal Husbandry Sh. Harji Ram Burdak for this progressive step.

The University has been established for the purposes of development of veterinary and animal sciences in the State of Rajasthan by ensuring proper and systematic instruction, training, research and extension in modern systems of veterinary and animal sciences and its allied sciences at its constituent as well as affiliated colleges. In its act "Veterinary and Animal Sciences" includes all the disciplines of veterinary, animal sciences and animal husbandry including poultry and its allied sciences, e.g., fisheries sciences, sciences of animal kingdom, faunal, wild animals, silkworm, bees etc., including their Natural Resource Management, Production and Protection, Dairy Science and Livestock Food Technology, Agriculture Engineering and Technology pertaining to animal component, Animal Business

Management, Basic Sciences and Humanities in relation to Veterinary and Animal Sciences, and any other subject deemed to be related to veterinary and animal sciences. Therefore, it provides ample opportunities to the University to flourish in all these directions.

I shall also like to utilize this opportunity to thank all professional colleagues for their undaunted support during the formation of this University. There are many unsung heroes in the list. Apart from professionals, we should be thankful to all non-professional persons who have also been supportive. Assuring of my bit of contribution of providing a congenial and uninhibited working environment, I look forward towards a new zest, vigour and interest in one and all to work for better living of animals and their owners. It is my great pleasure to present to our readers the first issue of the RAJUVAS Newsletter. I welcome you to navigate through our website to learn more about the RAJUVAS and its activities.

World Veterinary Year - 2011

Striding Ahead

The Rajasthan University of Veterinary & Animal Sciences, Bikaner has become a separate entity on 13th of May, 2010 consequent to carving out of units pertaining to Veterinary & Animal Sciences from Swami Keshwanand Rajasthan Agricultural University, Bikaner and Maharana Pratap University of Agriculture & Technology, Udaipur, in accordance to commencement of the Act of this University. Prof. A.K. Gahlot has been appointed as the first Vice-Chancellor of the University. Within a short span of its existence, the University is striding ahead towards its progress by leaps and bounds under the able guidance, dynamic leadership, positive approach, innovative ideas and administrative flair of the Vice-Chancellor. The University got approval of the Government to open a new constituent Veterinary College at Jodhpur. It has also added two more constituent institutes for providing two years Diploma in Animal Husbandry at Jaipur and Vallabh Nagar (Udaipur). One more affiliated Veterinary College at Dungarpur has been allowed admissions by the VCI.

The University is located in a palatial building and its precincts spreading over 200 acres of land. The University has sophisticated equipments and well equipped facilities for execution of major three organs of the University, i.e., Teaching, Research and Extension. Under this University, there are now three constituent colleges, one each at Bikaner, Navania, Vallabh Nagar (Udaipur) and Jodhpur, where 60 students in each college are admitted annually besides 25 payment seats. Rajasthan is the first state in the country to have Public Private Partnership mode in veterinary education. Under this innovative step of the state, there are seven private veterinary colleges affiliated to this University in the state. The State would be producing nearly 500 veterinarians every year in the service of animal health care which is the backbone of rural economy of Rajasthan.

The College of Veterinary and Animal Science, Bikaner was established in 1954 in heritage buildings. The College awards the undergraduate degree of B.V. Sc & A.H recognized by VCI and offers M. V. Sc course in 15 subjects and Ph D by course work in 11 disciplines.

There are two Livestock Farms functional under the control of this College which are situated at the College campus and Kodamdesar (25 kilometers from Bikaner). There are four Livestock Research Stations at Beechhwal (Bikaner), Chandan (Jaisalmer), Nohar (Hanumangarh) and Navania, Vallabh Nagar (Udaipur).

The University has also 49 Institutes providing 2 years Diploma in Animal Husbandry after 10+2 spread over whole Rajasthan producing about 2500 para-vets annually. These institutes are in Bikaner (4), Alwar (3), Bharatpur (2), Churu (1), Dausa (2), Dungarpur (1), Hanumangarh (2), Jaipur (13), Jhalawar (1), Jhunjhunu (2), Jodhpur (5), Karauli (2), Kota (2), Bundi (1), Baran (1), Sriganganagar (2), Sikar (2), Tonk (1)

and Udaipur (2). There is one center of Rajasthan Livestock Health and Production at Jaipur dealing with animal disease diagnosis, monitoring and surveillance.

Other Salient Features:

1. The students passed out from this University have been selected in institutes of National and International repute and they are contributing significantly in the progress of the nation to expedite economic reform and as a means to improve the quality of livestock sector.
2. Free-of-cost distribution of males of improved breed of Magra sheep and Marwari and Sirohi goats to the farmers.
3. Production and distribution of Tharparkar and Rathi improved bulls.
4. Various measures like training of vets and paravets for animal disease control and issuing of monthly animal disease forewarning bulletin have resulted in reduction of morbidity and mortality of animals across the state.
5. The faculty from this University is contributing in publications of three journals from Bikaner which are of international repute.
6. Effective implementation and result oriented work is done on ICAR schemes/research projects on buffalo, sheep and goat improvement running in the University.
7. Each and every department and hostel are equipped with internet connectivity so that students get research data for their study material and other related work.
8. In order to channelize the students' energy into constructive work, the University has recently created an office of Dean, Students Welfare which promotes talent amongst students in extra-curricular activities like cultural, dance, music, literary, sports, games etc. and infuse a spirit of community service. NSS activities are also conducted in its colleges. There is one unit of Remount and Veterinary Squadron of NCC under which students of the college enrol for a period of two years and get the certificates of various categories after passing the examinations.

9. In order to promote leadership talents amongst the students, the University conducts students' body elections annually at college as well as University levels.
10. A students counselling centre is functional in the University which facilitates information related to fellowship, jobs opportunities etc. to the students.
11. A dog show is organized almost every year to create awareness among pet lovers.
